

# Dissolvable Frac Ball

Designed for multi-stage applications, the TEAM Oil Tools Dissolvable Ball utilizes proprietary material to meet specific wellbore environments. The dissolvable ball can withstand pressure differentials up to 15,000 psi and temperature ranges from 100°F to 350°F. TEAM offers both a fresh water dissolving ball and a chloride dissolving ball.

## FEATURES AND BENEFITS

- Temperature Rating: 100°F to 350°F
- Pressure Rating: Up to 15,000 psi
- Dissolve Fluid Type: Brine or Fresh Water Based
- Specific Gravity: Fresh Water Based = 2.7 Chloride Based = 1.85
